

Toronto District Christian School Board

Toronto, Canada

easy
does it.®

Your first reaction as you walk through our doors will be, "Wow, look at all the computers!" TDChristian High School has a reinforced commitment to creating a dynamic, innovative, technologically advanced and friendly learning community.

The school is housed in a modern facility featuring beautiful outdoor spaces and a new \$3 million science and media arts wing. Hallways, classrooms, and studios are filled with technology, including more than 320 computers. This new facility wanted to ensure that all students benefit from first-class learning and teaching resources. Although the school had used interactive whiteboards for several years, the development of the new wing was the ideal opportunity to ensure that the school was equipped with the best available interactive learning technology going forward.

TDChristian School standardised on TeamBoard after evaluating a number of interactive whiteboards. TeamBoard was selected by a panel of technologists and teachers – who were impressed by the easy installation and the intuitiveness of the board.

All Math, Science and English teaching classrooms are complete with a TeamBoard Total Fixed Wallmount. Recent funding and recognition to develop eLearning environments and interactivity enhancements in the classroom and on-route school buses at TDChristian School have lead to them to purchase TeamBoard finger touch monitors.

**"TeamBoard has been a great addition to our classrooms.
We chose TeamBoard because of its ease-of-use and quick learning curve.
Our teachers say that it enhances their teaching by allowing students
to engage with the materials being taught.
Our teachers and students love it!"**

–Eric Vrieling, Technologist.

"Teamboard has been a great addition to my Mathematics classes. The colour choices make it easy to show steps and instructions; the graphs make it easy to create accurate graphs; and its ease with creating pdfs makes my notes accessible on the internet. There are no more excuses for missed notes."

– Mark Fluit, Teacher

TeamBoard believes that technology provides the power for humans to achieve maximum result not inhibit them. TeamBoard is a global leader in creating, manufacturing and supplying cutting edge technology. By combining real-world application, thought leadership and "listening" to our users TeamBoard Solutions provide every instructor, presenter and audience from the Classroom to the Boardroom with the ability to provide more engaging sessions. – Easy does it!

We hope that this case study may provide you with insight into how TeamBoard solutions can be integrated into your own collaborative working space.
