## TeamBoard Lesson Plan Services

### Customized Lesson Plan Development – By Teachers, For Teachers

- > Conversion of lesson plans from 'old' proprietary software formats to the 'open' TeamBoard DRAW format or to the new, powerful, WizTech tools-based format
- > Adaptation of 'analog' lesson plans to DRAW or WizTech
- > Custom Lesson Plan Creation to suit specific curriculum requirements

TeamBoard products that include TeamBoard Draw™ and TeamBoard OEM WizTech Tools for Teachers have the best of both worlds.

**TeamBoard Draw™** is canvas-type software in the 'traditional' sense. You launch Draw and you have windows with pages in which to work, either by preparing lesson plans in advance, or using the pages as workspaces to work on the fly. TeamBoard Draw saves into the \*.tmb file format as well as the new global interactive whiteboard Common File Format, with the \*.iwb extension. Additionally, your TeamBoard Draw End User License Agreement permits Draw to be used on any brand of hardware now or in the future. So, this means that teachers who prepare content in Draw are not 'locked in' to using Draw or TeamBoard for the rest of their careers... their files are portable to any software that is compliant with the new global standard.

**WizTech** is palette-style software. The tool palette is 'always on', floating on your desktop. You can use the interactive tools to work on the canvas inside WizTech, or you can use them to work in conjunction with other software and content of your choice. For example, when talking about Egypt, use Google® to find an image of an Egyptian pyramid, then quickly use a protractor from the WizTech tool palette set to drop it on top of the image and measure the angles. This is done live, in real time, without 'Right Click – save as – choose path – type filename – open software – new file – import image – find folder – select file'. WizTech is designed for this kind of real time interaction. However many teachers find it useful to have lesson plan templates ready for use in WizTech. TeamBoard offers Lesson Plan conversion services, by teachers, for teachers.

TeamBoard Lesson Plan Designers are certified teachers who hold at a minimum a Bachelors in Education degree, and are familiar with various interactive whiteboard software including TeamBoard Draw™, WizTech™, SMART Notebook™, and Promethean® ActivInspire™ flipcharts.

SMART Notebook™ is a trademark of SMART Technologies ULC. ActivInspire™ is a trademark of Promethean Limited.
