

Welcome to TeamBoard! These **Quick Start** Cards address some Egan PowerX basics, from installation steps to one-touch drawing. If you require more detailed information, please access Help on the Dashboard, refer to the User Guide on the Egan PowerX CD, or contact TeamBoard Technical Support at 905-851-2826 or 1-800-263-2387.

TeamBoard 8060 Touchscreen (front view)

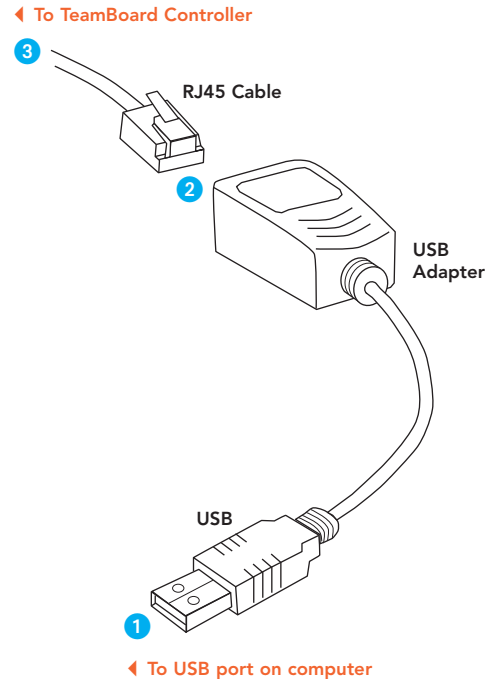

TeamBoard 8060 Touchscreen (rear view)

USB TeamBoard

Note: USB installation must **always** be performed **prior** to software installation.

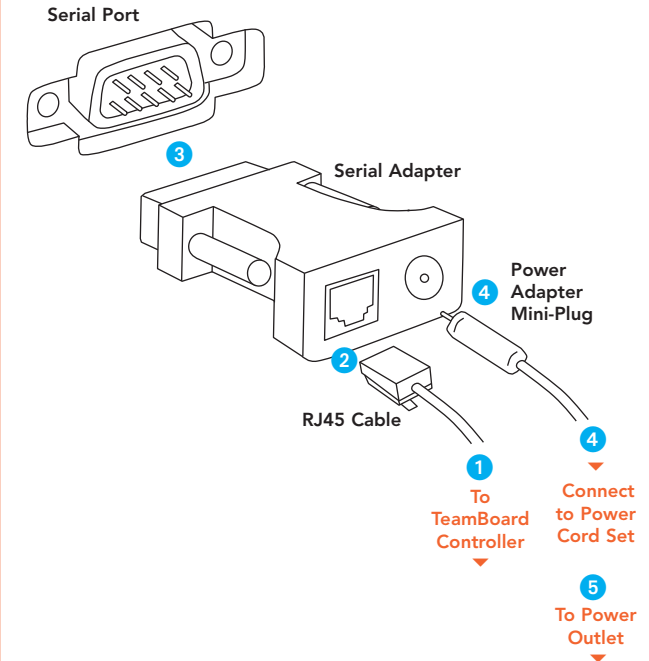

USB TeamBoard Installation:

- 1 Attach both USB Adapters to available USB ports on your computer.
- 2 Plug one end of each RJ45 cable into the corresponding USB Adapter.
- 3 Plug the other end of each RJ45 cable into the corresponding TeamBoard Controller (back of the TeamBoard panel, bottom-right corner).

Your computer should immediately detect the TeamBoard.

Note: If you have to disconnect a USB Adapter from the computer, ensure that, when you reconnect, you use the **same port** that was assigned during initial installation. Otherwise, the USB connection may not be detected.

Serial TeamBoard

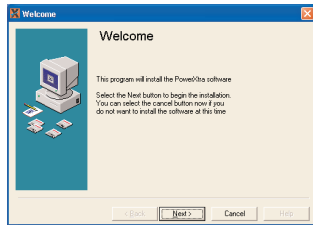

Serial TeamBoard Installation:

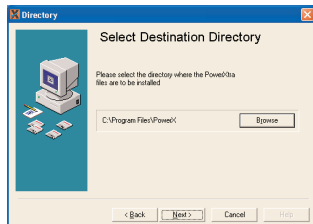

- 1 Plug one end of both RJ45 cables into the TeamBoard Controllers (back of the TeamBoard panels, bottom-right corner).
- 2 Plug the other end of the RJ45 cables into the corresponding TeamBoard Serial Adapters.
- 3 Connect the Serial Adapters to available 9-pin Serial ports (back of computer). Tighten the screws to ensure secure connections.
- 4 Plug the Power Adapters (mini-plug) into the Serial Adapters, and connect the other ends to the power cord sets.
- 5 Plug the power cords into the power outlets.

[Proceed to Egan PowerX for TeamBoard 8060 Quick Start #2](#) ▶

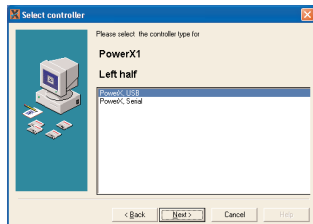

Insert the Egan PowerX for TeamBoard 8060 CD, and follow these simple steps.

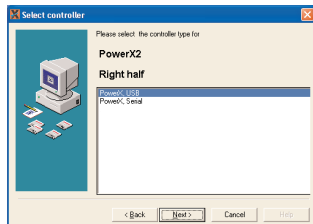

1. Select **Install Egan PowerX**.
The **Welcome** dialog box appears.
Click **Next** to continue.

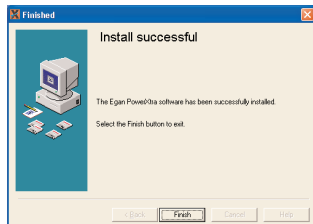

2. Read the terms of the license agreement.
Click **Accept** to continue.

3. The **Directory** dialog allows you to specify a folder for the Egan PowerX program files.
Click **Next** to continue.

4. Identify the **Controller** for TeamBoard 1 (left panel).
 - ▶ **USB**: the H-USB controller should automatically be selected. Select **Next**.
 - ▶ **Serial**: select the appropriate controller.
If you are not sure what to select, check the TeamBoard controller label. Select **Next**.
 Now identify the Controller for TeamBoard 2 (right panel). Select **Next**.

5. **Serial only**: Identify each **Com Ports**. Click **Next**.
6. You are ready to install software. Click **Next** to proceed with installation.
7. When installation is complete, connect to **www.teamboard.com** to register on-line.
Your TeamBoard and software must be registered within 60 days of purchase to validate the warranty.
Click **Finish**.
Egan PowerX has been successfully installed.
