- Customizable Grid options
- Pen Tools (Free Form, Variable Width Arrow)

IMPORTANT NOTES on TeamBoard Suite 6.01 for Windows

- Two separate installations are required for both 32 and 64 bit Windows.
- TeamBoard 3 VRT must not be connected with other TeamBoard devices i.e. TeamBoard 2 USB, Touch Monitor, IR.
- For Windows Vista (only): Before installing TeamBoard Suite 6.0 turn off the 'User Account Control' (UAC) to copy all files successfully. In Order to do that, follow the steps given below:

Click Start and then open Control Panel.
In the Control Panel, click User Accounts
Click Turn User Account Control on or off.
Uncheck the box beside the '**Use User Account Control (UAC) to help protect your computer**' option.
Click OK.
When prompted, restart the computer. Note that the changes will affect all users on the computer.

Don't forget to register your TeamBoard! All software upgrades are free to registered TeamBoard users, plus all registered users receive notice of new releases. Visit www.teamboard.com/tech to register. **Please remember to uninstall the previous software and reboot before installing new software.**

To interact with media files: You must have Adobe Flash with ActiveX (for .swf files) or QuickTime (for .mov files) installed. You can install any of these required applications before or after installation of TeamBoard Software. If you install QuickTime after installing TeamBoard software, you will need to reboot your computer.
